**Purpose:**

### Description

“NIBE Heating” - the market leader of wood-burning stoves in Sweden. The products of this company are famous for their quality and efficient combustion technology.

**Specificities:**

- clean glass system - soot does not stick to the glass;
- stove meets the particularly high environmental requirements and low emission standards, regardless of the heating capacity;
- firewood logs used for heating - up to 33 cm length;
- non-hot handle;
- the chimney connecting pipe can be taken out from above or back;
- doors are made in cast iron;
- the combustion chamber is covered with vermiculite bricks;
- Combustion air is supplied from outside or from a nearby room. This way, the air in the stove always stays fresh;
- with ash box under combustion chamber;
- combustion chamber is made from high quality steel.

The stove body has a 5-year warranty.
