Manufacturer: Heatpex

Height, mm: 106

Width, mm: 498

Depth, mm: 360

Mounting diameter: 160

Item type: Kolektorius

Warranty, year: 60

Description

The ARIA distribution box is connected to the recuperator and is used to divide the supply air into rooms or collect used air from the rooms. It is made of high-quality, pollution-resistant plastic.

1 distribution box will allow the connection of up to 10 75 mm pipes and the main central or side approach. The installation requires the use of two sets of boxes – for supply air and for exhaust air.

- Modular construction enabling expansion with additional distribution boxes
- 10 slots in the basic configuration
- Possibility to connect the main central or side connection
- Possibility of expansion by connecting other boxes with the use of horizontal and vertical connectors

The distribution box includes the following components *:

- Body with 4 connection nozzles – 1 piece
- 3x75 module with elliptical seat gasket – 2 pieces
- Cover with a gasket – 2 pieces
- Mounting ring for the pipe – 10 pieces
- End cap with gasket – 10 pieces

*) Switch box is delivered factory assembled
