**Height, mm:** 212

**Width, mm:** 228

**Depth, mm:** 520

**Color:** juoda

**Mounting diameter:** 125

**Item type:** Lauko grotelės

**Warranty, year:** 24

### Description

The combi box can be used as a combined fresh air intake / exhaust air in places where the return grid over the roof is not possible and the return in the outer wall is not a nuisance.

The combi box is designed in such a way that the fresh air intake and exhaust air are well separated to avoid mixing air.

The combo can be rotated 180 ° so it can be used as both right and left variant.
