**Height, mm:** 31  
**Width, mm:** 249  
**Depth, mm:** 249  
**Item type:** jungtys  
**Warranty, year:** 60

Description

A coupling for connecting two or more distribution boxes vertically. Used when the 10 pipe slots available in a single distribution box are insufficient for air distribution as designed.

- Plugs into the central socket of the distribution box
- Connecting a second distribution box vertically increases the number of available connectors by 10
- Equipped with finger loops for easy installation in the distribution box.
